INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Community Foundation of Western Nevada,
Incorporated and Subsidiaries

Report on the Financial Statements

We have audited the accompanying financial statements of the Community Foundation of Western Nevada, Incorporated (a nonprofit organization) and Subsidiaries which comprise the consolidated statement of financial position as of December 31, 2015, and the related consolidated statements of activities and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

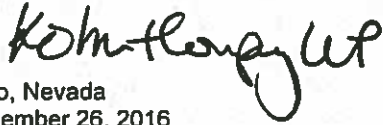

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Community Foundation of Western Nevada, Incorporated and Subsidiaries as of December 31, 2015, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

The December 31, 2014 consolidated financial statements of the Community Foundation of Western Nevada, Incorporated and Subsidiaries were audited by us and we expressed an unmodified opinion on those consolidated financial statements in our report dated June 3, 2015. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2014, is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

Other Matters

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of functional expenses on page 18 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

**COMMUNITY FOUNDATION OF WESTERN NEVADA,
INCORPORATED AND SUBSIDIARIES**
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2015

NOTE 1 - NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Community Foundation of Western Nevada, Incorporated and Subsidiaries (Foundation) activities and significant accounting policies consistently applied in the preparation of the accompanying consolidated financial statements follows.

Nature of Activities

The Foundation is organized as a nonprofit corporation under the laws of the State of Nevada to complement and enhance the existing philanthropic efforts of nonprofit organizations.

During 2000, the Foundation received a contribution of a limited liability company, CFX, LLC. This wholly-owned subsidiary has partial ownership in a leasehold, which is a building leased out to grocery stores in Tennessee.

During 2003, the Foundation established CFCP, LLC. This wholly-owned subsidiary was created for the purpose of receiving donated property.

During 2011, the Foundation established CFRSO, LLC. This wholly-owned subsidiary received varying fractional memberships of five separate LLCs. The memberships were created from the voluntary conversion of fractional ownership positions in direct investment loans as notes receivables secured by real estate.

CFRSO, LLC also received varying fractional ownerships of 18 separate notes receivables. The pledges were created from direct investment loans as notes receivable secured by real estate.

Principles of Consolidation

The consolidated financial statements include the accounts of the Foundation and its wholly-owned subsidiaries, CFX, LLC, CFCP, LLC and CFRSO, LLC. All material intercompany accounts and transactions have been eliminated.

Classification of Net Assets

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958, *Financial Statements of Not-for-Profit Organizations*, requires the Foundation to report information regarding its financial position and activities in three classes of net assets: unrestricted, temporarily restricted, and permanently restricted, based upon the existence or absence of donor-imposed restrictions.

The Articles of Incorporation of the Foundation include a variance provision giving the Board of Directors (the Board) the power to modify any restriction or condition placed on gifts to the Foundation if, in its sole judgment, the Board determined that the restriction becomes, in effect, incapable of fulfillment or inconsistent with the charitable needs of the community. The Foundation's governing documents further provide that, absent contrary directions given in the transferring instrument regarding the use of the principal, all or part of the principal of any fund may be used subject to certain conditions, including approval of the Board and Trustee holding each fund. Accordingly, such contributions are reported as unrestricted net assets.

Net assets subject to donor-imposed restrictions that will be met either by actions of the Foundation or the passage of time are designated as temporarily restricted. The Foundation's temporarily restricted net assets are primarily composed of contributions received for scholarships and specific areas of interest.

Permanently restricted net assets are subject to donor-imposed restrictions that will be maintained in perpetuity. The investment income generated by these assets is available for general support of the Foundation's programs and operations.

NOTE 1 - NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash Equivalents

For financial reporting purposes, the Foundation considers all money market and highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

The Foundation maintains cash and money market balances in financial institutions which may, at times, exceed federally insured limits as insured by FDIC or SPIC Insurance. Although balances held in cash and cash equivalents at December 31, 2015 exceed the insurance limits by \$7,375,965, the Foundation has not experienced any losses in these accounts and does not believe it is exposed to any significant credit risk on cash funds.

Investments

Investments in debt securities and equity securities with readily determinable market values are recorded at fair value. The fair value of investments in securities traded on national securities exchanges is valued at the closing price on the last day of the fiscal year; securities traded on the over-the-counter market are valued at the last reported bid price. Non-publicly traded stock is based upon an appraisal that is done on the stock once every five years.

Real estate investments are recorded at fair value determined by periodic appraisals which are obtained as deemed necessary based upon economic conditions and management discretion. LLC ownership values are based upon the assessed value of the property held less a blended discount rate of 30% for lack of marketability and minority interest. Notes receivable are valued on the lower of the assessed value of the property held as security against the note, less a blended discount rate of 30% for lack of marketability and minority interest or the original note value. For both the LLC ownership values and the notes receivable values if actual information based on subsequent sale or comparable sale information is available, that value is deemed to be the fair value of the investment.

The fair value of other investments in hedge funds for which quoted market prices are not available is determined by management with the assistance of third-party investment managers in good faith using methods it considers appropriate. Securities are generally held in custodial investment accounts administered by certain financial institutions.

Investment purchases and sales are accounted for on a trade-date basis. Realized gains and losses are calculated on the underlying fair value of individual lots. Interest income is recorded when earned and dividends are recorded on the ex-dividend date.

Investments are made according to the Investment Objectives and Policies adopted by the Foundation's Board. These guidelines provide for investment in equities, fixed income, and other securities with performance measured against appropriate indices. The Board contracts outside parties to provide investment management and consulting.

In general, investment securities are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain long-term investments, it is reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect the amounts reported in the Consolidated Statements of Financial Position.

Contributions and Pledges Receivable

Unconditional promises to give that are expected to be collected within one year are recorded as contributions receivable at their face value, which approximates the estimated realizable value in the year made. Unconditional promises to give that are expected to be collected in future years are recorded as pledges receivable. The contribution receivables are considered fully collectible by management; therefore, no allowance for doubtful accounts is included in the financial statements.

NOTE 1 - NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property and Equipment

The Foundation capitalizes all expenditures of property and equipment in excess of \$1,000.

Purchased property and equipment are recorded at cost. Contributed property and equipment are recorded at fair value at the date of donation. Depreciation is provided using the straight-line method over the estimated useful lives of the assets of three to thirty-nine years.

The Foundation evaluates the recoverability of its long-lived assets based on whether a particular asset is impaired. An asset is considered impaired if the net book value of such assets exceeds the future undiscounted cash flows attributable to such assets. Accordingly, the Foundation evaluates asset recoverability at each balance sheet date or when an event occurs that may impair recoverability of the asset.

Grants Payable

Grants and scholarships are made from available principal and income in accordance with the designations of donors. Grants are recorded at the date of approval by the Board or when a donor-advised grant award is communicated to the grantee.

Split-Interest Agreements

Obligations under split-interest agreements, including charitable remainder trusts and gift annuities, are recorded when incurred at the present value of the distributions to be made to the donor-designated beneficiaries. Distributions are paid over the lives of the beneficiaries or another specified period. Present values are determined using discount rates and actuarially determined expected lives. Split-interest agreements are revalued annually to reflect actual experience; the discount rate is not changed. The net revaluations, together with any remaining recorded obligations after all trust or gift obligations under terminated agreements have been satisfied, are recorded as net changes in the value of split-interest agreements.

Functional Expenses

The costs of providing the various programs and other activities of the Foundation have been summarized on a functional basis in the Consolidated Statement of Activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Income Taxes

The Foundation is a nonprofit corporation exempt from federal income taxes under the provisions of Internal Revenue Code Section 501(c)(3); therefore, no provision for income tax is provided. The Foundation has been classified as an organization that is not a private foundation and has been designated as a publicly-supported organization. CFX, LLC, CFCP, LLC and CFRSO, LLC are all considered single member LLC's and are disregarded entities for tax purposes. They are included in the return of the Foundation. Tax positions to consider include, but are not limited to:

- It has not engaged in activities that would jeopardize its tax exempt status
- It has not engaged in any activities that would result in unrelated business income tax
- It has determined that there are no material uncertain tax positions that require recognition in the financial statements

Accordingly, no provision for income taxes has been made. In addition, the Foundation does not expect any material change in uncertain tax positions within the next twelve months.

Contributions

Contributions are recognized when the donor makes a promise to give to the Foundation that is, in substance, unconditional. Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions.

Contributed property and equipment are recorded at fair value at the date of donation. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support. In the absence of such stipulations, contributions of property and equipment are recorded as unrestricted support.

Contributed securities are recorded at averaged fair value at the date of donation.

Pension Plan

Employees may elect to participate in a Tax Sheltered Annuity (TSA) plan offered by the Foundation. The program is 50% funded by employees with a match provided by the Foundation of 50%. The program provided up to 8% of the employees' wages to be matched in 2015.

Subsequent Events

Subsequent events have been evaluated through September 26, 2016, which represents the date the financial statements were available to be issued. Subsequent events after that date have not been evaluated.

Use of Estimates

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassification

Certain items on the 2014 issued financial statements have been reclassified to conform to the 2015 current year presentation.

NOTE 4 – SPLIT-INTEREST AGREEMENTS

The Foundation's split-interest agreements with donors consist primarily of charitable gift annuities and irrevocable charitable remainder uni-trusts for which the Foundation serves as trustee. Assets are invested and payments are made to donors and/or other beneficiaries in accordance with the respective agreements.

Contribution revenue for charitable gift annuities and charitable remainder uni-trusts is recognized at the date the agreement is established, net of the liability recorded for the present value of the estimated future payments to be made to the respective donors and/or other beneficiaries.

The present value of payments to beneficiaries of charitable gift annuities and charitable remainder uni-trusts are calculated using discounted rates which represent the risk-free rates in existence at the date of the gift. Gains or losses resulting from changes in actuarial assumptions and accretions of the discount rate are recorded as increases or decreases in the respective net assets in the Consolidated Statement of Activities.

Contributions received for split-interest agreements were \$49,839 for the year ended December 31, 2015.

NOTE 9 – ENDOWMENT FUNDS

In 2007, The Board of Trustees, adopted a spending plan that follows the Uniform Prudent Management of Institutional Funds Act by enforcing no spending of the permanently restricted portion of donor funds, which consists of the historic gift, or corpus, of the fund. The objective of endowed funds is that the principal gift(s) of the fund will be held forever. Charitable distributions will be spent from a fund's net earnings according to the Foundation's spending policy. The spending policy is established to ensure the availability of grant making dollars to the community in perpetuity. The investment policy currently establishes a target return of CPI (consumer price index) plus five percent. The funds available for grant making are determined each year based on the previous year's ending balance. The Spending Policy for 2015 and 2014 was 5% of the fund balance limited to income.

The Foundation's endowment consists of funds established to finance grants and benefit various charities. Its endowment includes donor-restricted funds that are reflected as endowments and scholarships in the temporarily restricted net assets and permanent endowments that are reflected as permanently restricted net assets. As required by the generally accepted accounting principles, net assets associated with endowment funds, including fund's designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions. Funds have been designated by the Board of Directors and committees of the Foundation for long-term purposes and are included in unrestricted, designated amounts during the year ended December 31, 2015.

Change in endowment net assets for the year ended December 31 are as follows:

	2015

Return Objectives and Risk Parameters: The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowments assets. Endowment assets include those assets of donor restricted funds that the Fund must hold for a donor specified period, and includes the earnings of those funds. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce a maximum return while assuming a moderate to low level of investment risk that will be measured based upon an annualized rate of return over a five year continuous time period. The Community expects its endowment funds, over time, to provide a positive rate of return annually. Actual returns in any given year may vary.

Strategies Employed to Achieve Objectives: To satisfy its long-term rate of return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through capital appreciation (realized and unrealized) and current yield (interest and dividend). The Foundation targets a diversified asset allocation that places an emphasis on balanced accounts by various asset classes including equity, real estate, fixed income instruments and cash equivalents.

Investment Objectives as Related to the Spending Policy: The Foundation has a policy of appropriating at least 5% of its endowment funds value as of the end of the day December 31 of the preceding year for the planned distribution year. In establishing this policy, the Foundation considered the expected long-term rate of return on its endowment. Accordingly, over the long-term, Foundation expects the current spending policy to allow its endowment to grow at an average of 1% net of inflation and all other investment expenses annually. This is consistent with the Foundation objective to maintain the purchasing power of the endowment assets held for a specific term as well as provide additional real growth through new gifts and investment return.

NOTE 10 – RELATED PARTIES

For the year ending December 31, 2015, the Board of Directors and employees contributed \$2,679,735, 26% of total contributions received, to the Foundation. In addition, members of the Board of Directors and employees maintain funds in the amount of \$13,150,717, which represents 22% of the total fund balance.

In addition, one of the Board of Directors is on the board of one of the investment holdings, which comprise 16% of total investments held.

NOTE 11 – RENTAL PROPERTY

During 2000, the Foundation received a contribution of a limited liability company, CFX, LLC. This contributed limited liability company has partial ownership of two separate leaseholds. The leaseholds consist of buildings located on land leased from a third party. The buildings are then subleased to grocery stores. During 2006, the Foundation reported an additional \$84,085 in contributions to CFX, LLC.

NOTE 11 – RENTAL PROPERTY (Continued)

The respective ownership interest in each of the properties has been consolidated into the books of the Foundation and has been included in property and equipment in the consolidated statement of financial position.

The rental buildings are located on land that are on ground leases expiring on December 1, 2021. The leases provide for renewal of five consecutively extended terms of five years each.

The minimum rental commitments under the ground leases are:

2016	\$	18,268
2017		18,268
2018		18,268
2019		18,268
2020		18,268
Thereafter		16,746
	\$	<u>108,086</u>

The rental income on the properties is received under two subleases in two separate entities.

Future minimum sublease income is due as follows as of December 31:

2016	\$	79,458
2017		79,458
2018		79,458
2019		79,458
2020		79,458
Thereafter		72,837
	\$	<u>470,127</u>

Rental income under subleases for the year ended December 2015 was \$125,726.
